

## inspired LED Designer Series Panels 2.0

Inspired LED's **NEW Designer Series Panels** are an ideal low-voltage LED lighting solution for any application, from under cabinet task lights in the kitchen, to accent lighting on shelves or display cases. These low-profile panels utilize a frosted lens to create a sleek, diffused beam of light, and are easily combined with Inspired LED accessories to create the perfect lighting system for your home or business.

## **Product Features:**

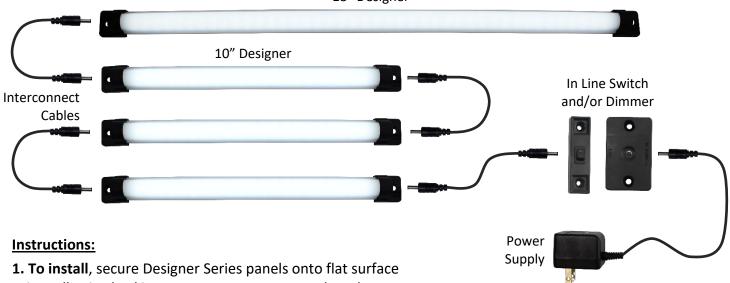

- Low cost modular design
- Simple plug & play installation
- Frosted lens for evenly diffused light
- Low energy consumption
- Rated to last up to 100,000 hrs
- UV and IR free
- Dimmable with compatible systems

## **Specifications:**

- CSA listed (C22.2 No. 250.0-08)
- Input: 12V DC Class 2 Power (3.5 x 1.3mm jack)
- Power: 1.5W per 10" panel (3W per 18" panel)
- Dimensions: 10"x 0.87" x 0.67" or 18" x 0.87" x 0.67"
- Color Temp: Warm≈ 3000K, Pure≈ 4300K, or Cool≈ 6000K
- Lumens/ft: Warm≈ 110 lm, Pure≈ 115 lm, Cool≈ 120 lm
- CRI: 90

- using adhesive backing, or screw mounts on each end
- 2. Make connections between panels using Inspired LED interconnect cables, plugged in from end to end
- 3. Connect cable from first panel in series to in line switch and/or dimmer, then connect to plug-in power supply
- 4. Connect cable from first panel in series to hardwire transformer, then connect transformer to dimmable wall switch (see hardwire transformer specs for more detail)

Power Source	Max # of Designer Series Panels
